Score 93-94

« Biodynamic cultivation for Fougas Maldoror. A lot of finesse and freshness in the bouquet of Fougas Maldoror. Inviting fruity and spicy notes complemented by mineral notes. The wine is creamy, silky and carried by compact tannins with very fine grains. We feel the calcareous freshness through chalky notes and energizing salinity! A brilliant wine to discover at all costs. 2027-2040 »

Culture biodynamique pour Fougas Maldoror. Beaucoup de finesse et de fraîcheur dans le bouquet de Fougas Maldoror. Invitantes notes fruitées et épicées complétées par des notes minérales. Le vin est crémeux, soyeux et porté par des tannins compacts aux grains très fins. On ressent bien la fraîcheur calcaire au travers de notes crayeuses et d'une salinité énergisante ! Un vin brillant à découvrir à tout prix. 2027-2040

Note 90-91

« We have a 2022 with firm, velvety and tasty tannin with a nice final bounce. »

On a un 2022 au tannin ferme, velouté et savoureux doté d'un joli rebond final.

Dégustation primeurs 2023 - Bettane+Desseauve

Score 89

« The 2022 Fougas Maldoror is austere and a bit oaky on the nose. but the medium to full bodied is better, exhibiting refined tannins and an enveloping core of fruit. I'd expect this to show better in bottle. »

— Château Fougas Maldoror —

2022

Score 88

« The 2022 Maldoror is a huge, bombastic wine. Ripe red-toned fruit, spice, lavender, licorice and mocha are all dialed up to the maximum. There is some toughness in the tannin that needs to be addressed, however. »

Note 90-92

« Ripe black cherries, chalky minerality, blueberries, and spring flowers emerge from the 2022 Château Fougas Maldoror, a medium-bodied, elegant Côtes de Bourg based on 75% Merlot and 25% Cabernet Franc. The balance is spot-on, and it has terrific purity as well as ripe, integrated tannins. »
